<b>Annotations</b>			Term 1 sets up online learning skills and resources for students and introduces them to all modes of delivery and what is required to achieve throughout the course year.										Term 2 Students well into Cloud computing and using Google accounts to access online learning exercises and assessments.										Term 3 Students concentrate or elected C path and completing ICDL modules.										Term 4 Students make sure they have completed ICDL and their elective C Units and assessments. Also get help with revision and catch up on any learning points they may have missed in early modules.
